Vision statement

Agreed by all staff September 2013, reaffirmed 2014, 2015, 2016 and 2017

Our vision for England Lane Academy is for a school where everyone works together within a positive, calm and caring environment which demonstrates high standards of behaviour and mutual respect. We believe that our children need to leave us with well developed personal and social skills, independence, high self motivation, healthy lifestyles, strong self belief and secure basic skills in literacy and numeracy. At all stages we will promote these core aspects with parents, carers and the wider community.
